

The intent of our Spec Tire rule for Uni-Car, Bomber, Mini-Stock/ Super Hornet, is an attempt to contain tire and racing costs, while promoting a more equal level of competition.

You may use any combination of the 15" - 205, 215, 225, 235, 70, 75, 78 tires that meet all other rule criteria. You may use used tires, they do not have to be new!! We are eliminating all high end tires such as Good Year Reggetas or equilvants.

Fuel cell and tank specs have been amended.

Bombers-8 gallon, Uni-Car-12 gallon max

All fuel containers must be all steel or steel encased Fuel cells, for all divisions.

Stock unaltered engines do not mean you may not install larger valves in Cylinder Heads in any division!

Thank you and if in doubt please ask-
