

PIT PASS/PUNCH CARD RAIN OUT POLICY

- A. If rain out occurs after the pit gates are open but before any feature racing events:**
All participants receive the rain out provision. **Bring back your wristband** and get in for free, for one of the next two events. (For example: if it rains during the heat races and the program is deemed a rain out – everyone gets the rainout provision.)
- B. If rain out occurs after any feature events have taken place:**
Rain out policy is ONLY good for the drivers that the feature events HAVE NOT taken place. Must bring back wristband.
No crew member gets a rain out. (no way to tell who crews for what division)
Feature events that have taken place – driver's DO NOT get a rain out. (For example – if Power stocks and Legends have completed their feature event, the Power stock and Legend drivers do not get back in for free the following race(s).)
If purses are paid in that division, it will not be valid for the rainout provision
Also per the rule book; because the event is half over.
- C. If a rain out occurs on a double feature night and one set of feature events have taken place:**
No Rain out policy – deem a complete race
(For Example: if we are in our first late model feature and we have over half the first features' in and there is a rain out, there is no rainout policy for anyone – race is deemed complete)
(For Example: if we are in our first Big 8 feature, and Late Models and Thunder Cars haven't raced their first feature yet, Late Model and Thunder Car Driver's get the rain out provision – no other classes)
If purses are paid in that division it will not be valid for the rainout provision
No rain out policy on second features because only one pit fee is charged.
- D. If a rain out occurs on a double feature night and some single feature events have taken place:**
See scenario B
- E. If rain out occurs on the last day of racing or use of punch cards:**
No Rain out policy – have a great winter
