

# Amendments:

## Local Track Rules: Elko Speedway

- Track width, body heights, crank height and fuel cell height will be measured with the car sitting on 4" blocks
- Exhaust may exit out the passenger side door with no weight penalties. Exhaust must be flush with door, may not stick outside of the door panel.
- Ride height will be measured without the driver in the car, the car will be pushed to the ground and it will have 2 minutes to rebound to 3½" at the frame. Adding air to tires post-race to meet ride height will not be allowed.
