Competition Tire(s) Rule

- A. All competition tires are required to be used in the exact shape, design, and condition as received by the manufacturer. Any attempt to alter the competition tires in any way is strictly prohibited.
- B. Elko Speedway Officials may, at any time, request one of the drivers tires for detailed inspection to determine if it's been altered. The Officials will supply the driver with a substitute tire in exchange.
- C. Any driver that is competing in the same event may challenge a driver(s) tire(s) as meeting the requirements and intents of the Elko Competition Tire(s) Rule. The challenging driver or crew member must give the Elko Chief Steward/Head Tech Official notice of the intent before or immediately after completion of qualifying or feature event with the proper form. The challenging driver will reimburse the challenged driver(s) the cost of the tire. In addition, the challenging driver will pay Elko Speedway the cost of shipping and testing the challenged tire(s).
- D. If after careful examination and testing, Elko Officials determine that the tire has been altered from the originally manufactured condition, that tire as well as the other three (3) registered competition tires that were on the driver's car at the time of the request, will be removed from the list of registered competition tires, thereby ineligible for use in any future competition. In addition, the driver will be disqualified from that event and any other future events where any of the registered competition tires were used as well as forfeiture all points and purse money.

IMPORTANT NOTE! - Failure to comply with A. B. or C. will cause the driver(s) to be disqualified from all related events as well as forfeiture of all points and purse money.

Elko Speedway reserves the right to determine the intent of all rules, regulations and amendments contained in this Competition Tire(s) Rule.
